EDUCATION

KIET Group Of Institutions

Bachelor of Technology

CGPA : 8.76

2018 – 2022

EXPERIENCE

Associate Software Engineer

Optum - UHG (Fortune 5)

July 2022 – Present

Gurgaon

- Worked in agile/scrum methodology in EEMS Team.
- Went through sessions on Linux, Docker, Jenkins, CI/CD, Kubernetes and DevOps basics.

Software Engineer Trainee

Cognizant

Feb 2022 – June 2022

Remote

- Went through training sessions on fundamental coding, hands-on and behavioral learning.

PROJECTS

See [Algo\(Algorithm Visualizer\)](#) | [HTML](#), [CSS](#), [Bootstrap](#), [Vanilla JavaScript](#), [Git](#) | [Hosted Link](#) | [Code](#)

- Build an algorithm visualizer using vanilla javascript. Do go through the video !
- Implemented the following algorithms: **Binary Search**, **Linear Search**, **Bubble Sort**, **Selection Sort**, **A* Path Finding Algorithm**.
- Added a popup about complexities and working of various algorithms and data structure.

[Portfolio Website](#) | [HTML](#), [CSS](#), [Bootstrap](#), [Vanilla JavaScript](#), [Git](#) | [Hosted Link](#) | [Code](#)

- I developed and designed my portfolio website to showcase my skills and give a comprehensive detail about myself.
- It contains the details about my work experience, education, projects, and achievements in an interactive and visually-appealing format.

ACCOMPLISHMENTS

- Solved up to 200+ problems on [Leetcode](#)
- Rated 5 * Problem Solving Badge on [HackerRank](#)
- Rated 4 * SQL Badge on [HackerRank](#)
- Scored 1389/1800 in TCS - NQT
- Have represented various countries at various **Model United Nations**. They are as follows :
 - Represented **India** at **JP sector 128 - International Organization for Migration (IOM)**
 - Represented **Zimbabwe** at **JSS - UN General Assembly (UNGA)**
 - Represented **Finland** at **JP sector 62 - The United Nations Human Rights Council (UNHRC)**
 - Delegate at **KIET - USG Hospitality**

TECHNICAL SKILLS

CS Fundamentals: Data Structure and Algorithms, Object-Oriented Programming, DBMS

Languages: Java, JavaScript, HTML/CSS

Version Control: Git

COURSES TAKEN

Algorithm Toolbox

- * This online course on Coursera helped in understanding basic algorithmic techniques and ideas for computational problems.

Responsive Website Basics : HTML, CSS and JavaScript

[Coursera](#)

- * This course helped me learn three key website programming and design languages: HTML, CSS and JavaScript to make interactable webpages.
